

Final Grades Semester One

The teachers at all of the secondary schools in the Comox Valley want to assure parents that final grades for Semester One will be available both to students and parents. All Grade 12 students will have their marks issued through the office, but due to the current teacher job action, no other students will have final marks reported through the office at this time. Teachers will be issuing final marks directly to students and/or contacting parents by email or phone. Parents who have questions or concerns about student's marks are, as always, asked to contact the teacher for more information. Comox Valley teachers want to assure parents how much they value the importance of regular communication with the parents of their students.
